Im home

Who is this?

2011-05-07 7:33 PM

Hello?

2011-05-09 5:20 PM

Well random person, thank you for letting me know you are home. However, this information is completely irrelevant to my life, due to the fact I don't know who you are. Despite this, I am glad you are home and not driving around lost in a car engulfed in flames, because I may not know who you are, but I would not wish that upon anyone. If your house is on fire however, than I'm sorry to hear you are home.
